## Garmin Marine Cartography

BlueChart<sup>®</sup> cartography is Garmin's exclusive marine cartography. It complements Garmin's line of handheld mapping products and marine chartplotters. This line of cartography products is designed to provide interactive viewing of detailed nautical chart data, thereby providing navigators with innovative object-oriented cartography. These detailed electronic nautical charts look just like paper charts when displayed on your Garmin chartplotter. Descriptive details for features typically found on nautical charts can easily be viewed with a simple key press. Cursor movements over the chart provide descriptions for contour depths, chart number, navaid name, and much more.

#### BlueChart<sup>®</sup> g2

g2 BlueChart mapping features smooth layering and seamless integration of map graphics for easy panning, scrolling and zooming. With rich colours and shading for easy interpretation and clear visibility, this marine charting offers comprehensive IALA navaid symbology and marine services. And, best of all, it features a choice of 3-D map perspective, or the familiar 2D direct-overhead view - to make chart reading and orientation easier. BlueChart is styled to match the appearance of paper charts when displayed on your Garmin chartplotter.

#### BlueChart<sup>®</sup> g2 Vision<sup>®</sup>

Enhance your nautical navigation with BlueChart g2 Vision highprecision charting. Garmin's most detailed digital marine data contains premium mapping features including high-resolution satellite imagery, above and below the waterline 3D perspectives, Auto Guidance technology, aerial photography of ports, harbours, marinas and waterways and coastal roads with points of interest. BlueChart g2 Vision gives mariners greater capabilities on the water, with useful navigation landmarks and marine landscape detail to boost your chartplotting technology.

Fishing Chart Detailed bathymetric contour lines

MarinerEye 3-D High definition 3D graphics bring land and bottom contours to life.

FishEye 3-D Underwater perspective view shows fishing target detected by connected GSD 22/24/26 sonar.

Satellite Image Overlay Satellite images over land or water cartography for a clear view of your surroundings

Current Arrows Animated current flow arrows display current and speed.

Aerial Photographs Detailed high-resolution photographs of ports and harbours.

Auto Guidance

Just chose your destination and our exclusive Auto Guidance technology will calculate a safe path for you to get there

**Tidal stations** Tidal station charts for selected countries makes it easy stay ahead of the tides

Coastal road maps Detailed coastal roads and POIs up to five miles inland makes it easy to find shops, restaurants, lodging and more

#### HOMEPORT<sup>™</sup> 2.2

# **BlueChart Overview**

# Because great voyages start with a smart plan.

HomePort<sup>™</sup> allows you to take existing BlueChart® data and use it on your computer to plan your next voyage with ease. In addition to managing waypoints, routes and tracks, HomePort is also fully integrated with ActiveCaptain<sup>™</sup> content that provides marina data, reviews, local knowledge, anchorages, and hazards. Plus, it helps predict fuel usage, tides, depth profiles, and more. You can quickly create point-to-point routes, determine distance and bearing measurements between checkpoints, and calculate your estimated travel time for each leg of your journey. It also features sonar playback capability and stores information from past voyages right on your computer. Once you've planned your route, it's easy to transfer the data from the computer back to your chartplotter via plug-in microSD™/SD™ data card. It even shares data with quatix™, the high-sensitivity GPS navigator marine watch from Garmin.

#### **KEY FEATURES**

- Compatible with BlueChart® g2, BlueChart g2 Vision®, LakeVü™ HD and LakeVü HD Ultra navigation charts<sup>1</sup>
- Available via download or on preprogrammed microSD/SD cards
- Compatible with Windows® XP SP2 and later, and Mac® OS X 10.5.8 (Leopard) and later
- Allows user to measure distance and bearing on marine charts
- Displays route/track depth profile
- Converts tracks into point-to-point routes & specifies speed for each leg of the route

- Provides arrival times for each route leg
- Shows animated playback of data collected on device
- Calculates fuel consumption, tides, depth profiles and more
- Displays "real picture" aerial photos and points-of-interest detail
- Exports selected data to Google™ Earth
- Integrated with ActiveCaptain content
- Features sonar playback capability

1Not all features supported in all products.

HomePort trip planning software includes a worldwide basemap and can be used with BlueChart g2, BlueChart® g2 Vision®, LakeVü<sup>TM</sup> HD and LakeVü<sup>TM</sup> HD Ultra data cards/downloads. It is designed to work with the following units: echoMAP<sup>TM</sup> 50s, 70s, GPSMAP® 400, 500, 600, 700, 4000, 5000, 6000, 7000 series and 640 (only chartplotters preloaded with BlueChart or LakeVü HD mapping).

#### **BLUECHART® MOBILE**

# The best journeys begin at home, on your iPad or iPhone

With our BlueChart<sup>®</sup> Mobile app, you can plan your route on your iPad or iPhone wherever you are. You have full access to the same multifunctional, accurate BlueChart data that is available for Garmin plotters, and can view shaded depth contours and tidal zones with spot sounding. Plan your journey around sights in harbours and channels, keep a track of weather conditions, temperatures, dew points, wind direction/speed, radar and cloud cover. Use Active Captain - an advertisement-free information service - to find out more about what to see and do in the areas you'll be travelling to. Active Captain is a community-based information service providing mariners with up-to-date user reviews and information on Points of Interest.

When you board your boat, you can wirelessly transfer routes, waypoints and tracks to your Garmin plotter\*.

#### **KEY FEATURES**

- Free to download from the App Store (detailed charts can be purchased within the app)
- Data is transferable between both chartplotter and the app\*
- Calculate projected speed, fuel flow and arrival times
- Premium worldwide weather data available

GARMIN

Available on the App Store

- Display distance and bearing measurements for your proposed route
- Project tidal stations, tidal streams and celestial data

#### WARNING.

No national hydrographic office (HO), State Authority, and their licensors have verified the information in this product or quality assured it, and none accept liability for the accuracy of reproduction

or any modifications made thereafter. No national hydrographic office and their licensors make any warranties or representations, express or implied, with respect to this product. No national hydrographic office warrants that the product satisfies national or international regulations regarding the use of the appropriate products for navigation or that it contains the latest hydrographic information available

#### WARNING:

All charts are digitized directly from existing government and other official charts and should not be used solely for navigation. Digital charts are intended to be used as an aid to traditional navigational charts, not as a replacement. Only official government charts and notices to mariners contain all information needed for the safety of navigation, and as always, the captain is responsible for their prudent use. A prudent navigator never relies on any single source of navigational information. Garmin strives to provide its customers with the most economical, accurate and up-to-date electronic maps available. However, features are continually changing, so the data may not reflect the latest modifications and/or additions in your area. Garmin makes no warranty as to the accuracy or completeness of the map data.

DISCLAIMER:

This reproduction, partial or complete, of any National Geospatial-Intelligence Agency (NGA), National Imagery and Mapping Agency (NIMA) or Defense Mapping Agency (DMA) product, information or data is not approved, authorized or endorsed by the Secretary of Defense, the Director of Central Intelligence, the Director, NGA or any other element of the US Government. The US Government and NGA accept no liability for the accuracy or quality of this reproduction or the use of any NGA, NIMA or DMA products, information or data.

#### WARNING

Some of the information in this product may have been produced, in part or whole, from withdrawn national hydrographic office products. New charts and/or NTM corrections will render this product obsolete and inaccurate

#### WARNING

U.S. National Park Service / Department of the Interior (NPS) property ownership data is compiled from deeds, plats, surveys, and other source data. These are not engineering quality drawings and should be used for administrative purposes only. The National Park Service shall not be held liable for improper or incorrect use of the data described and/or contained herein. These data and related graphics are not legal documents and are not intended to be used as such. The information contained in these data is dynamic and may change over time. The data are not better than the original sources from which they were derived. It is the responsibility of the data user to use the data appropriately and consistent within the limitations of geospatial data in general and these data in particular. The related graphics are intended to aid the data user in acquiring relevant data; it is not appropriate to use the related graphics as data. The National Park Service gives no warranty, expressed or implied, as to the accuracy, reliability, or completeness of these data. It is strongly recommended that these data are directly acquired from an NPS server and not indirectly through other sources which may have changed the data in some way. Although these data have been processed successfully on a computer system at the National Park Service, no warranty expressed or implied is made regarding the utility of the data on another system or for general or scientific purposes, nor shall the act of distribution constitute any such warranty. This disclaimer applies both to individual use of the data and aggregate use with other data. The data is intended for use as a tool for display and general GIS analysis purposes only. It is in no way intended for engineering or legal purposes. The data accuracy is checked against best available sources which may be dated. NPS assumes no liability for use of this data. WARNING:

The Great Barrier Reef Marine Park Authority ("the Authority") does not check the information in this product and accepts no liability for the accuracy of copying or for any modifications that may have been made to the information which it has supplied. Use of and entry to the Great Barrier Reef Marine Park is controlled by the Great Barrier Reef Marine Park Act 1975 (Cth) ("the Act"). Penalties apply for use of or entry to a zone for a purpose other than for a purpose permitted under the Great Barrier Reef Marine Park Zoning Plan 2003 ("the Zoning Plan") prepared by the Authority pursuant to section 32 of the Act. This product does not contain all information concerning permitted use or entry under the Zoning Plan. For purposes of use of or entry to the Great Barrier Reef Marine Park, this product should only be used in conjunction with the Zoning Plan and the Great Barrier Reef Marine Park Regulations 1983 (Cth). For purposes of navigation, users should consult official navigation charts released by relevant government authorities. WARNING:

The Department of Transportation does not check the information in this product and the Crown in right of the State of Western Australia accepts no liability for the accuracy of copying or for any modifications that may have been made to the information which it has supplied. Furthermore, the Crown in right of the State of Western Australian does not warrant the accuracy of any information contained in any of its charts, maps or data of whatsoever nature.
